Whales Tales

Whales are mammals, which live in the ocean. There are many different kinds of whales. The blue whale is the biggest animal on the Earth. It's almost 100 feet long. Whales can swim at a speed up to 30 miles per hour. They eat fish, seals and other sea animals. They need to eat 50 -150 kg of meat every day. Whales breathe air through their blowholes. They rise to the surface of the water to breathe. They can live a long time, even up to 90 years. Whales don't sleep, but they take quick naps.

Some humpback whales make sounds that are like songs. A whale might sing for twenty minutes. Not all humpback whales sing. Only male whales sing. They sing mostly in winter. Some people think singing is their way to talk to other whales.

Can you guess some more rights?

4 Read the text and do the tasks below.

The Rights of the Child

The United Nations has more than 50 rights that are listed in the UN Convention on the Rights of the Child. They are basic needs – things that every child must have or be able to do to live a safe, healthy and happy life. According to the United Nations, everyone under 18 has the same rights no matter who they are, what language they speak, what their culture is, whether they are boys or girls, whether they are rich or poor or anything else. All rights are equally important. Adults should do what is best for the child. As children grow, they have more responsibility to make choices and exercise their rights.
